

An even greater choice of technology: **now available in the online PCB shop!**

An expanded product portfolio is waiting for you in our online configurator.

You can now calculate and order flex technology, multilayer PCBs up to 16 layers and a whole lot more both quickly and easily, and that's in quantities starting from one PCB.

We've got the optimum quotation for every requirement.

At a glance – What's NEW in the online configurator?

Technology:

- PCBs up to 16 layers
- HDI 1-x-1 and 1-xb-1
- Flex 1F and 2F

End copper thicknesses:

- Standard end copper thickness
18 µm / 35 µm / 70 µm / 105 µm
- HDI end copper thickness 18 µm / 35 µm
- Flex end copper thickness 18 µm / 35 µm

Material:

- Material type: TG 135 / TG 150 (FR4)

PCB thicknesses:

- Standard in 2.00 mm, 3.20 mm
- HDI 1.00 mm and 1.55 mm
- 1 F in 0.12 mm
- 2 F in 0.17 mm

Conductor pattern structures:

- 85 µm structures
(18 µm end copper / etching)
- 100 µm structures

Additional mechanical treatment:

- Chamfer (20° PCI, 45° ISA)
- Edge plating

Additional surface:

- Gold connector plating

Silkscreen:

- White / Yellow

Additional prints:

- Plugged Via

The perfect quotation for every requirement!

You don't need an advanced technology quotation? Then you can simply hide the new additional options in the calculator.

You will find further details about delivery times and prices here:
www.wedirekt.com/en/tec

Your advantages in the online shop:

- Quick and easy ordering, 24 hours a day
- Deliveries starting from one piece
- Online configurator with instant price calculation
- Express deliveries from 2 working days, HDI from 5 working days
- Industrial-grade quality at attractive prices
